MEMORANDUM FOR HENRY A. KISSINGER

FROM: AL HAIG

SUBJECT: Talking Points for Your Luncheon with PFIAB -
Thursday, June 3 - 12:30

Admiral Anderson believes that all members of the Board intend to be present both for the luncheon with you and for the meeting with the President on Friday. The members are:

Admiral Anderson
Dr. William Baker
Mr. Gordon Gray
Dr. Edwin Land
Mr. Frank Lincoln

Mr. Franklin Murphy
Mr. Robert Murphy
Mr. Frank Pace
Governor Nelson Rockefeller

Admiral Anderson has the members prepared to discuss the OMB study of the intelligence community.

-- You should encourage them to give you their thoughts on the study since they will be talking to the President on that subject on Friday.

You might also want to give the members a word or two on the new silos in the Soviet Union since so much confusing information has appeared in the press.

-- We have now spotted roughly 60 of the new silos, 42 of which are at SS-11 complexes and the rest at SS-9 complexes.

-- The latest photography in early to mid-May indicated that the Soviets are constructing silos with two different inner core sizes.

-- That raises the possibility that they are going to deploy two entirely new missile systems or;

-- they are hardening silos for variants of both the SS-9 and SS-11.

-- FYI: There are now 276 operational SS-9 launchers with 12 more under construction. All 850 SS-11 launchers are completed.
